

WASHOE COUNTY OFFICIAL PRESS

G. C. POWNING, EDITOR AND PROPRIETOR

THURSDAY, SEPTEMBER 9.

THE KEELY MOTOR.

Such astonishing things have been told about the many things that can be done by the new invention of the Philadelphia man named Keely, that a great many papers and people affect to believe that the whole concern is a fraud, or has an existence only in the diseased brain of the originator. We admit that the strength claimed for it is simply wonderful, but we cannot shut our eyes to the fact that just such ridiculous has been poked at all the starting inventions. When Morse said he could make a message go from Washington City to Baltimore over a wire he was laughed at, and but for the firm friendship of a man or two in Congress, might never have received the needed help to give it a fair test. As it was the bill for his assistance only passed in the rush at the close of session. What a success that has proved. Look at Robert Fulton's "wild dream." Was he not the victim of much sarcasm when he was inventing the steamboat? Yet see what a grand stride it was in the highroad of civilization. We might multiply case upon case of similar character, but will let those answer for our illustration. Hence we say that the people are never ready to give anything starting a fair show. What harm will it do to let Keely test his machine fully? If it is a success, it will take its place among the foremost rank of inventions, but if it is not, it will soon prove itself so. We therefore protest against these sarcastic thrusts that are being driven at him. We earnestly hope that it is not a chimera, but that it will prove all that has been claimed for it. We hope to live to see the day when a bucket full of water will draw a train of cars from San Francisco to New York. We believe that the powers of water are not half known, and that that innocent, colorless fluid, which gives the hydraulic press its resistless power, will show itself to be able to perform wonders, if properly applied. Continue, Keely, with your invention, and may success crown your labors.

THAT DEFEAT.

The Republican party came out second best in the California election which took place on the 1st instant. But the returns shows that if the votes of both Phelps and Bidwell were united they would outnumber Irwin's vote thus showing that if the Republican party had remained intact Phelps would be the next Governor of California. We believe that Bidwell, who is the lowest in the count, really expected to be elected. This is because the Democrats patted him on the back and said that they were going to vote for him, thus giving him an apparent strength which was only fictitious. Booth was also deceived by the oily words of the "great unwashed" and "pachecoed" or the purpose of being on the winning side. But alas for the fleetingness of human hopes. The two B's were on the wrong ticket. This should teach the Republican party a lesson. They need all their strength to successfully compete with the Democracy, and a split in their ranks means certain defeat to both them and the split. Of course the Democracy went straight and sold for Irwin. They saw a splendid chance for victory and they embraced it with eagerness. The reins of government in that State will now pass into other hands, and all because of the bull-head foolishness of a few sore head Republicans, who are of the rule-or-ruin stripe. We hope to see California redeem herself at the Presidential election.

Santa Monica, Senator Jones' new town on the Pacific Coast, will be fully supplied with water in about twenty days. The Water Company are laying pipes to connect with San Vincent Springs. The capacity is ample for all requirements.

The President has accepted the sixth section of twenty miles of the Southern Pacific Railroad.

California troubled with quails.

Montreal has a "graveyard riot." Cardinal McClosky reached Rome Thursday.

The Carson mint coined \$454,070 in August.

Mrs. Lincoln's full recovery from insanity is denied.

Hammond, the revivalist, has gone to Salt Lake City.

Clouds of grasshoppers are passing over a portion of Illinois.

To-day is the 25th "admission day" of California into the Union.

It is thought East that the Union and Central Pacific Railroads are going to consolidate.

Gold closed Monday in New York at 115. This is higher than gold has been for some time past.

Full election returns from San Francisco give Irwin, 13,597; Bidwell, 6,140; Phelps, 6,180.

Edward Ransom was Tuesday elected President of the North Carolina Constitutional Convention.

The New Hampshire State Fair opened Thursday. Henry Ward Beecher is to deliver the oration.

Ex-Senator Clapp has entered upon the duties of his new office, United States Marshal of Nevada.

The Workingmen's Convention in Paris protest against European armaments as a burden intolerable to the people.

The assistant Treasurer of the United States, at San Francisco, paid \$1,700,000 to the banks during the last week in August.

The jailer of an Illinois town has been threatened with death by the Kluklux unless he releases two soundrels in his charge.

Jose Del Carme will be hanged on the 17th instant, at San Diego, for the murder of a man named Johnson, at Julian several years ago.

A dispatch from Constantinople says order has been restored in Bosnia, and that the insurrection in Herzegovina is almost ended.

The largest bridge in any of the Territories is one in course of construction across Bear river on the Utah Northern line, its length being 2,100 feet.

The Russian General Kauffman has won a signal victory over the Kholand rebels. It is a little funny to think what the Khokand people are rebelling again.

Edith O'Gorman, "the escaped nun," has sued the New York Arcadian for \$50,000, being the sum at which she estimates the damage her character sustained.

Dr. Hembold, the bachu man, has been discharged from the Pennsylvania Insane Asylum, and now proposes to bring a suit for damages against the asylum.

There are three prisoners in the hands of the Sheriff at Pioche that will have to be sent to the State Prison, namely: Chas. Frendo, Charles Connors and George Hadley.

Two hundred citizens of Omaha formed a ring the other day in the streets of their city, and allowed a couple of disreputable women to pound each other's noses therein.

The value of one vote is again illustrated in Solano county. T. M. Swan, Democrat, is found to be elected to the Assembly over L. B. Mizner, Republican, by one vote.

A miscreant has been arrested in Detroit for keeping a gambling room for small boys. He used to instruct his young patrons in the different games of hazard, and win from them their pocket money, making a comfortable living out of the aggregate of small sums thus obtained.

Arrangements are being made for the removal of the remains of all the Chinamen who have lately died in California, and Yon Lim Kon, is preparing the boxes in which the bones are to be shipped to the Central Flowery Kingdom. The boxes in question, of which several hundred have already been manufactured, are being sent to all parts of the Coast.

A difficulty occurred at a meeting in Clinton, Miss., Tuesday. Three whites are reported killed, also three negroes. Several whites and negroes were wounded. Armed whites from Edmonds, Balton and other places have arrived at Clinton to protect the town. The negroes are arming and threatening another fight.

The Unknown Riches of the Earth.

Why should we assume the Peruvian traditions of the lost mines of the Incas to be untrue, or smile because we are told that the Ashantees know where to find gold in quantities? Why not? The California gold was known a century before it was found, and unless geology is all wrong, the Yankees have not got hold of the richest section, which is in Lower California, yet. The Turks must own and neglect endless mines—some of them, if tradition is not all self-deception, mines of gold—and there is all Southern Asia to be ransacked by the curious. Where, before maritime enterprise began, did all the silver, copper and lead in those countries come from? The people of India were two hundred millions before the fifteenth century, and used and hoarded silver and copper in several forms, and lead, and where did they get them? There are no silver mines now open in India. They are working gold diggings in Wynad on a system which indicates, if not with certainty, at least with a high degree of probability, that they have not reached the "reefs," and have only found some ancient deposits washed down upon them. There are all manner of minerals in the Malay Peninsula, and indeed throughout the Eastern Archipelago, which, for want of civilized methods of working, return nobody anything worth having. Would not copper be worth searching for in those regions, by men who remember that if they can only find any metal worth working, there is the boundless reservoir of China close at hand to draw their labor from? Discoveries of tin in the Archipelago have half ruined Cornwall, and there may be much more than tin in the existence of which geologists could predicate with certainty. Even leaving aside gold, as attempting but illusive metal, which rouses local cupidity too much, where are the places in Southern Asia, and especially in India, where copper ought to exist?

FROM MEADOW LAKE.—Fred Ritter has just returned from a trip to the Meadow Lake District, bringing with him several specimens of the rock. He says that Fryer will have fully demonstrated his theory for working the ores of the district by the 15th instant. The result is awaited with a great deal of anxiety, as the future of the whole district hangs thereon. Should it prove successful the whole country will be overrun by locators, should it prove a failure, the section will be deserted by those now there. Hence it is that so much interest is taken in his operations, and so much depends upon the result.—Enterprise.

HORRORS THAT THREATEN.—Theodore Tilton is writing a play—a five-act tragedy, one of the "Ger-rash-on-heavens! All is lost! Hah! hah! kind, and Bessie Turner is writing a novel, one of the "But," murmured the maiden, "if thou dost not think so, Adelbert, that it were better for if I have not had not" kind, and we don't care much now if the new trial comes off or not. With Bessie's new novel, "From Bed to Bed, or, Asleep in the Dark," and Theodore's terrible tragedy, "Hung to the Wall, a Tail of a Nightshirt," the American people can struggle through the Winter about as patiently as they worried through the Spring and Summer.

RABBITS.—These pests have destroyed in the neighborhood of 150 acres of grain in Starr Valley this Summer, in patches ranging from two to forty acres. They commence on the fields as soon as the young grain gets above the ground, and never permit it to reach a height of over three or four inches above the ground. All the valleys in Elko county have suffered more or less from the same cause, but none so much as Starr.

During the first two or three days succeeding the panic in San Francisco, large orders were received from New York and Boston for the purchase of several favorite stocks, the Eastern parties hoping no doubt to get their orders filled at a depreciated value. Owing to the course adopted by the Stock Boards the effort was unsuccessful.

ACCIDENT IN SUTRO TUNNEL.—The loader of Sutro Tunnel is now in soft and yielding matter, which requires close and careful timbering as fast as the excavation is made. A mass of earth fell up on a miner named Johnson while at work night before last, covering him up. He was extricated with some difficulty and taken to the mouth of the tunnel in a car. He is thought to be very seriously injured.

Or all the great lights of the inflationists billed to appear at Detroit on the 25th ult., not one put in an appearance and the "great greenback convention" fizzled contemptuously out.

Various flags were thrown to the breeze last Tuesday in all parts of Pioche, in honor of the news having received that the Bank of California would soon resume business.

idea is still pushed forward, notwithstanding that many entertain the idea that the silence of those interested in the invention must be construed as an evidence of a failure to accomplish what was claimed by the inventor. Mr. Keely and his lawyers are very reticent on the subject, and refuse to converse on the topic lest the curiosity of the public be again aroused. It has been learned however, that a stationary engine will be completed within three or four weeks, when a private exhibition will be given to members of the press at Mr. Keely's residence. The machine, it is reported is now under perfect control; that while an immense power can be generated in an instant, yet such improvements have been made as to allow the engineer to so manipulate it as to reduce the pressure from 15,000 pounds to the square inch down to zero. An engine for railroad purposes is also being made. The gauge to be used on the apparatus has been completed, and will be on exhibition on Chesnut street in a few days. It registers as high as 54,000 pounds pressure. It is stated, on the same authority, that the control of the patent will not be vested in a stock company.—Philadelphia Times.

FRANK M. PIXLEY has been appointed Regent of the California State University, vice Ralston deceased. Pixley's term, as prescribed by law, will expire June 12, 1878.

A number of women of San Jose, California, who are taxpayers, have published an indignant protest because they are denied the right of suffrage.

TOMB.

VANCE.—At Truckee Meadows, near Reno, September 8th, 1878, Edward, son of E. W. and Emma Vance, aged 7 months.

SUMMONS.

IN THE DISTRICT COURT OF THE SECOND JUDICIAL DISTRICT OF THE STATE OF NEVADA, and for the County of Washoe. The State of Nevada sends to WM. MULLEN, greeting: You are hereby required to appear in an action, commenced against you as defendant by Martha M. Leland as plaintiff, in the District Court of the Second Judicial District, in and for the County of Washoe, State of Nevada, and answer the complaint therein within ten days after the service on you of this summons, (exclusive of the day of service), if served in said County, or twenty days if served out of said County, but within said District, and in all other cases forty days, or judgment by default will be taken against you according to the prayer of said complaint. This said action is brought to obtain a decree of this Court dissolving the bonds of matrimony existing between plaintiff and defendant, on account of cruel and inhuman treatment of plaintiff by defendant, and that plaintiff have the care and custody of the children of plaintiff and defendant and for such further relief as the Court may grant, all of which will more fully appear from the complaint which is on file in the Clerk of said Court at Reno, in said County. And you are further notified, that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded. In testimony whereof, I, J. S. SHOEMAKER, have hereunto set my hand and affixed the seal of said Court, this 31st day of August A. D. 1878.

W. M. BOARDMAN, Attorney for Plaintiff.

 Mr. Otis,

METHODIST SEMINARY.—What does Reno propose to do about the proposed new seminary that the Methodist intend to build in this State somewhere? They want only \$10,000 guaranteed by some town in the State and there they will locate it. True, we have secured the Episcopal Seminary, but let our readers remember that we cannot have too many such institutions in our midst. Some object to having a Seminary entirely for females to the exclusion of male students, this objection is removed in the new enterprise. For \$20,000 now we can secure two first-class schools, and let our citizens bear in mind that this is a golden opportunity, and should be acted upon. Several other towns in the State are moving heaven and earth to secure it, and why not Reno also? Our citizens cannot expend \$20,000 for a better purpose than these enterprises. Why not call a meeting and talk the whole situation over, and decide what is best to do in the matter? Do not waste these splendid opportunities.

FINGERS CUT OFF.—Yesterday afternoon as the emigrant train was drawing out of the depot several Indians jumped upon it, as is their custom, for the purpose of riding a ways. One little Washoe missed his hold and fell, his hand falling on the track in such a manner that the three larger fingers were cut off. He yelled lustily because it pained him so badly, but he may regard himself as fortunate in escaping so easily. We have often wondered that more of them don't get killed. We have frequently seen them jump on and off trains that were going very rapidly and get into all sorts of positions. But a kind of fool luck seems to possess them and they repeatedly escape from positions where a white would be killed every time.

SOARLET FEVER.—This disease is making a severe inroads upon the health of the children in this vicinity. We chronicle the death of a child of Mr. Vance's this morning from this disease, and we hear of several other cases in the same neighborhood. This disease comes in a very dangerous form, and all parents will do well to guard the health of their children very jealously, particularly until this danger has passed. Too much care can not be exercised in this matter.

EPISCOPAL CHURCH.—This fine edifice is fast approaching completion. The roof has been completed for several days, the cupola is finished on the outside with the exception of putting in the windows, the windows have been put in in the body of the church, and it has been painted all over on the outside. The time is not far distant when it will be ready for use. Our Episcopal brethren will have an edifice that they may be proud of.

NEW STABLE.—W. Sanders, the carpenter, is now actively engaged in fixing up a stable for Louis Dean on the east side of Virginia street. A new front is being built which will be thirty feet long, making the whole building 105 feet long. Mr. Dean informs us that he will keep thirty-five head of horses there.

BOX SHEET.—The box sheet of Dyers Theatre, is now open at the Postoffice, so that all who desire to reserve seats for the Lingers next Saturday night can do so. No additional cost will be made for reserving seats. Call at once and secure a good seat.

FIND.—Yesterday morning two well known citizens got into a quarrel and came to blows. One was arrested by the other and pulled up before Justice Gilson on a charge of assault and battery. He pleaded guilty and paid his fine of \$42 50.

THE INDIAN OUTBREAK.

Various Times Feared—Shoshone, Snake and Ute Tribes United—Prompt Measures to be Taken—Soldiers Advancing to the Front—Hormons the Cause of the War.

The outbreak of the Indians in Lincoln county is assuming most alarming proportions, and another Indian war seems imminent. For the past year symptoms of discontent have been noticeable among the native tribes, which seems to have culminated at last in an outbreak. Cherry Creek, the scene of the difficulty, is situated in the eastern part of the State, not far from the old overland road. Its remoteness from the railroad and the large mining camps of Eastern Nevada, gives the Indians great advantages, as it takes time to get troops there; the nearest military post being Camp Halleck, at the head of Ruby Valley, in Elko county. At this season of the year they have great advantages over the troops, as they travel much faster and can hide in the mountains. It will therefore be impossible to chastise them, and they can harass and murder settlers on the eastern frontier of the State with impunity. That this outbreak has been incited by the Mormons, scarcely admits of a doubt. The Utes have been allied with the Saints for years, and the fact that they have come into this State and joined the Shoshones, is strong evidence that the Mormons have induced them to do so, and transfer the theatre of war from Brigham's domain to Nevada. Authentic information from Pioche, Eureka and Spring Valley say that 300 Indians surround Patterson and Spring Valley, and that all the Indians of Eastern Nevada have risen. Governor Bradley telegraphed to Gen. Schofield at San Francisco for troops, and authorized Capt. Kelly of the Eureka Guards to seize horses and supplies and proceed at once to the front, and that the State would be responsible. Gen. Schofield says that he will concentrate troops at Elko as rapidly as possible to operate from that point. A dispatch from Deep Creek, Utah, of the 6th says that all the settlers are congregating at that point, as they fear an attack. All the Indians have gone to the mountains and hid their squaws and papooses. The settlers at Deep Creek are preparing to send their wives and children to Grantville, under a guard, for safety and have pickets stationed every night. A deplorable scarcity of arms and ammunition exists. The pony express rider from Pioche to Hamilton had one horse shot from under him. He reports that fighting is going on at Patterson's Station, fifty-five miles from Pioche. Two white men and two Indians have been killed. Nothing has been heard from Cleveland or Murphy. Families at Duck Creek and other places are leaving their homes and fleeing to Cherry Creek. Great excitement prevails throughout the settlement. Calls for arms are being made from neighboring towns. Settlers on White River are greatly alarmed, and many will leave for Hamilton. Major Dennis and Capt. Kelly, go direct to Spring Valley, to the assistance of Cleveland and Murphy.

The citizens of Hamilton met in mass meeting, to prepare for their defense, as an attack is feared. Arms are being sent them from Eureka. The utmost excitement exists, and all sorts of rumors are flying around. It is evident that the authorities look upon the uprising of the red skins as serious, for they are concentrating large forces of troops at the front. A train of nine cars went through here Wednesday morning, four of them full of men and the rest filled with arms, munition, etc., from San Francisco. This State has no arms, so that all supplies must come from military points.

The cavalry from Fort Bidwell had not arrived up to the time of our going to press, though they were expected at any minute. A train went through from California last evening on which was quite a force of soldiers bound for the fighting ground. Nothing further has transpired that we have heard of.

Those things that Rev. Mr. Arnold advertises for sale are going rapidly, and if any one wishes to get good things at a bargain they had better not delay longer. He desires to dispose of them all soon.

Seven cars of emigrants and an engine for the the Southern Pacific, went through yesterday.

DUCATS.—The V. & T. passenger trains on Monday and Tuesday nights of this week, brought \$261,118.13 worth of bullion from the Consolidated Virginia mine. The wealth was transferred to the C. P. train here and sent to San Francisco. That would not be a bad dose to take.

PERSONAL.—We had the pleasure of a call from Wells Drury, late of the Carson Herald. He is around seeing the country and trying to spend his money. He leaves this morning for Carson.

RETURNED.—Harry Noyes, well known in Reno, returned from Panamint yesterday. He did some extensive hand-shaking with his old friends.

The Grand Jury completed their labors yesterday afternoon and have prepared their report, which will be given this morning, as soon as they can get the ear of the Court. We will give it to our readers to-morrow.

JOHN SUNDERLAND STILL AHEAD.—John Sunderland has just returned from San Francisco with the largest and best selected stock of boots and shoes ever brought to Reno. He has goods to suit all prices and all people. He has a fine assortment of children's school shoes, which give more satisfaction than any shoe ever brought to this town. He is selling boots and shoes at panic prices. Call at his store and examine for yourself. He has also on hand and for sale, a fine assortment of shoemaker's findings, which he offers to the trade at a small advance over San Francisco prices.

REMOVED.—The Misses Vance are now located on Virginia street, next door to the photograph gallery. They will receive at their dressmaking establishment and make to order in the latest styles, all kinds of plain and fancy sewing.

SELLING OFF AT COST.—Mrs. McNoley offers her entire stock of goods for sale, at cost, for cash. The ladies of Reno and vicinity will do well to call early and secure bargains, which will be had for cash.

NOTICE.—Mr. Mels, Greenman is no longer our authorized agent. Our patrons will govern themselves accordingly.
 Su Len & Co.

No Coin for Crown Point and Belcher.

The fact that the Crown Point and Belcher Mining Companies have not yet paid off is the occasion of great dissatisfaction among their employees. They have heretofore paid off regularly on the 5th of every month. The officers here say they do not know when they will pay off, but they hope it will be on or before the 10th. There are probably 1,000 men employed in these two mines, and the pay-roll foots up about \$150,000 a month. The stoppage of this large amount, even temporarily, has produced very tight times with business men, both in Gold Hill and Virginia.
